Handling & Cleaning Instructions BRAVIA 9II (65”,75” & 85”)

Recommendations to help maintain the best picture quality
and appearance of the BRAVIA 9II

SONY

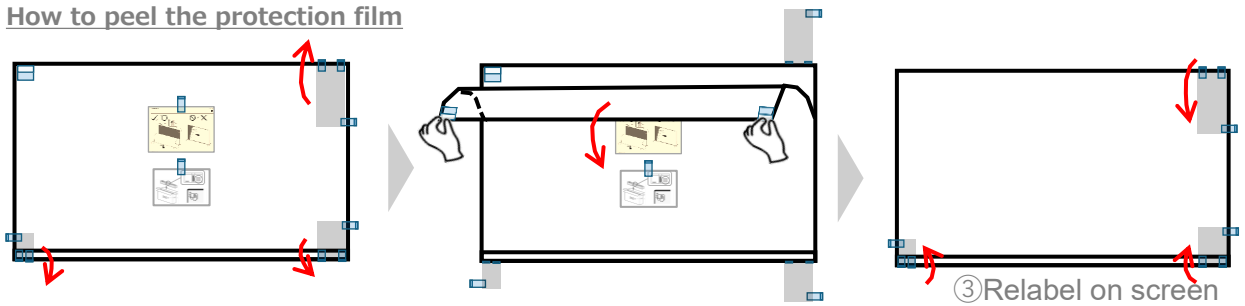

Sony Europe Home Entertainment

B9II Set-Up & Cleaning Recommendations (specifically for 65", 75" and 85")

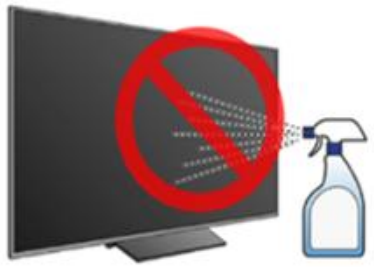

1) Protection film on panel screen

- protection film attached to the screen surface before shipment
- users/dealers are requested to peel this film before use

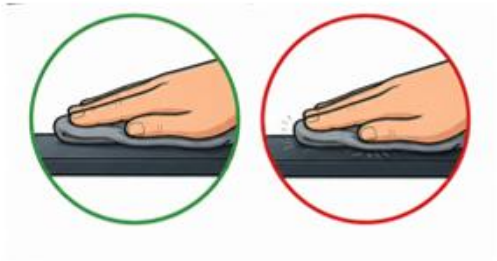

→ Please peel the film off from top to bottom
(same way as BRAVIA 8II)

Additional recommendations:

Avoid applying cleaning liquid directly on screen

Only wipe carefully without applying pressure

Recommendation: wearing gloves for set up

Avoid applying additional stickers on the screen surface

B9II Set-Up & Cleaning Recommendations (specifically for 65", 75" and 85")

2) How to remove dirty after peeling off the protection film

If you notice fingerprints or smudges on the screen, please follow the instructions below.

1. Gently wipe the screen with a dry microfiber cloth

2. If the marks cannot be removed, wipe the screen with a microfiber cloth moistened with water

3. If the marks still cannot be removed, wipe the screen with a microfiber cloth moistened with 70% isopropyl alcohol (a.k.a. isopropanol or IPA※).

※ Please use rubbing alcohol only. Do not use disinfecting alcohol, antibacterial alcohol, or alcohol intended for use on the human body.
